# MS SPAR

5 rollers (190 mm to 425 mm)  
\*North American standards also available

Spar 1 EX nip guard

## Product Features:

- ◆ Idler for 60° or 70° troughing angles. Equipped with 5 rollers and SPAR 1 EX nip guard.
- ◆ Most models can accommodate a hood with or without seals. This shields materials from weather conditions and prevents workers from accidentally leaning on the belt.
- ◆ Hood design provides unobstructed view of idlers, facilitating maintenance
- ◆ Offered for belt widths ranging from 650 mm to 1200 mm (24 to 48 in. North American standards also available. Contact us for other belt widths.)

## Deep trough idler

The MS SPAR is a new concept that offers gains in security and productivity.

It's ideal for both new installations and retrofits.

It can be equipped with a hood and sealing system.

Conveyors retrofitted with the MS SPAR can carry more tonnage while using the same belt width as before.
