

SPAR 2

Product Features:

- ◆ The SPAR 2 is located just before the point where the belt comes into contact with the head pulley.
- ◆ The SPAR 2 is made of two rigid polyurethane foam blocks that automatically adjust to the shape of the belt.
- ◆ The SPAR 2 is designed to provide long-lasting protection if properly installed (consult the installation guide for more details).
- ◆ The SPAR 2 can accommodate belts from 650 mm to 1200 mm wide.

Head pulley nip guard

The SPAR 2 is the perfect solution for preventing serious accidents at the head pulley.

The SPAR 2 is the safety device of choice for all belt conveyors.

The SPAR 2 can be adjusted to the size of the conveyor head by following the instructions in the installation guide.

A version of the SPAR 2 designed to protect snub pulleys is available.

No need to remove the SPAR 2 to carry out conveyor maintenance.

We do not warrant that our guards will meet all local codes. It is the responsibility of the end user to have them checked by a local inspector.
