

DEWAG

PRODUCT FEATURES

- The DEWAG is a truck mounted railcar unloading tool with a **swivel, tilt and telescopic toggle**.
- It allows the material (like ballast) to be unloaded and recharged directly on a stock, a truck, or even another train.
- The entire system can be **controlled from a wireless remote control**, giving the user great visibility over his operations.

UNLOADER ON TRUCK

- Simple
- Manageable
- Quick
- Adaptable

Its design allows it to be **adapted to different types of wagons**, including those with helmets close to the ground, such as C12 or D12 and EX.
