

MANGOSPAR

PRODUCT FEATURES

- MANGOSPAR is the perfect tool to discharge wagons. Installed on a four-wheel drive mobile base, a rotating tilting translatory grasshopper allows the transfer of materials.
- It unloads the aggregates and ejects it onto a stockpile or straight into a dumper or another train.
- His shape fits with many different kinds of wagons, including ones with the hatches close from the ground as the C12 and D12.
- The machine can be piloted by a wireless remote control, giving a greater visibility to the user.

SELF-CONTAINED TRAIN DISCHARGER ON WHEELS

- Easy
- Manageable
- Quick
- Adjustable
