

SPARGA

PRODUCT FEATURES

- The SPARGA is ideal for material sizes under 150mm and fall height under 2m.
- Ideal for belts width from 500 to 1200mm.
- The SPARGA is made of two wear-resistant Polyspar lateral rails mounted on adjustable brackets with choc absorbers.
- The lateral rails make it possible to raise the belt edges to create a 75° trough.

THE LEAKPROOF LANDING CRADLE

- The SPARGA eliminates the need for idlers, traditional rubber skirting and skirtboards at the loading point.
- Eliminates material leak at the loading point on belt conveyors.
- The SPARGA eliminates maintenance and fastidious adjustments.

The SPARGA :

- eliminates nip points at loading zones
- improves the belt lifespan
- eliminates rubber skirt adjustments
- improves belt tracking

Thanks to the SPARGA mounting system, adjustments can be made easily, quickly and precisely.

The belt transition area must be 1,5 to 2 times the belt width according to the belt type and to the conveyor speed.
